

Q2 Statistical Report 2018 Summary

Overall Quarter 2 Observations

- During this quarter, the Helpline saw a spike in calls in June rising from 484 in May to 605 calls in June, an unprecedented number of calls in one month. Overall, there was a 17% increase in calls during this quarter in comparison to the previous quarter.
- Calls were received from all four UK countries and spanned 37 police forces across England and 4 police forces in Wales.
- The most prevalent nationality for victims reported to the Helpline varied by UK country. Romanian was the most common nationality for cases in England (132) and Scotland (42). For Wales, the most common nationalities were English (12) and Polish (11). The only known nationalities of potential victims in Northern Ireland was Lithuanian and Zimbabwean.

Calls

Webqueues

Calls and webforms into the Helpline show a gradual increase over the second quarter, spiking in June. June was the busiest month yet for the Helpline with 605 calls and 120 webforms. For a year-by-year comparison, quarter 2 of 2017 showed 752 calls and only 97 web queues, compared to 1500 calls (99% increase) and 292 web queues (201% increase) in quarter 2 of 2018.

Number of Modern Slavery Cases

Potential Victims Indicated

The number of potential victims of modern slavery may vary significantly between months and is not expected to vary in direct proportion to the number of modern slavery cases, as some single cases of modern slavery may indicate several victims in one situation of exploitation.

1252 Cases | **509** Cases of Modern Slavery

2032 Potential Victims of Modern Slavery Indicated

Type of Cases

Modern Slavery Cases (one or more indicators of modern slavery identified)

Non-Modern Slavery Cases (other crimes, vulnerabilities, needs, risks)

General Information Cases (media, info about Helpline, general Qs about MS in the UK)

Non-Substantive Cases (wrong number, hang ups, inaudible connection)

Indicators of modern slavery reported to the Helpline include, but are not limited to, passport confiscation, little or no pay, debt bondage, isolation, monitoring, physical abuse, and demeaning/dehumanising treatment. Many of the general information cases relate to requests for Helpline materials and media interviews. A significant proportion of non-modern slavery cases handled by the Helpline relate to potential labour abuse, payment issues or employment contract concerns. Modern slavery cases reported to the Helpline may be from various locations in the UK (including abroad) and may not be city or town specific.

These categories correspond with the offences in the Modern Slavery Act 2015 and the National Crime Agency's published National Referral Mechanism statistics. In the second quarter, almost half of the Modern Slavery cases were 'forced labour' where no movement was reported. This includes Forced Prostitution. This differs from Human Trafficking for Non-Sexual or Sexual Exploitation where movement is required. Instances of Domestic Servitude may either be classified as Human Trafficking for Non-Sexual Exploitation or Slavery/Servitude. Cases involving more than one form of MS are recorded as 'various'. Cases recorded as 'unknown' may result from a technical assistance call with a professional dealing with a victim where the specific details of the exploitation are not disclosed.

Type of Modern Slavery

843 Referrals and Signposts

The number of referrals and signposts include those made on non-MS cases. Referrals may be made for other crimes indicated or non-MS related safeguarding concerns. Cases may have more than one referral or signpost made. Additional referrals may be made as new information is obtained on a case. Conversely, no referral may be made on a case, where that is appropriate.

Proximity of Caller to the Victim(s) in Modern Slavery Cases

In most cases recorded as MS, either the victim themselves called the Helpline or someone who has direct contact with the potential victim called. Callers in direct contact with a victim may include an NGO, friends or family of the potential victim, health professional, police, or local authority personnel such as social services. Indirect contact is recorded where the caller knows of the situation or the individual involved but has not had direct contact with the potential victim themselves. This may be where the caller has been told of a situation that involves a friend of a friend. Observation of suspicious activity refers to third-party tip offs where the information provided by the caller is often more limited.

Type of Criminal Exploitation

This quarter, the Helpline recorded 30 cases of criminal exploitation, indicating 138 potential victims.

25 cases and 41 potential victims were indicated during the previous quarter, meaning that the reporting of criminal exploitation to the Helpline is increasing.

The 'other' crimes reported were fraud, money laundering, acting without a sales license and selling stolen goods. These are cases where potential victims were reportedly made to commit these crimes by exploiters.

Gender of Potential Victims of Modern Slavery

There was also one Transgender Female potential victim reported.

The gender of potential victims is recorded by the Helpline where this is provided by the caller. If the caller is unable to specify the gender of indicated victims, 'unknown' is recorded.

Age of Potential Victims of Modern Slavery

Potential victims' ages are recorded based on caller information. If the caller does not know the age of the victim, 'unknown' is recorded. In all cases, the Helpline seeks to establish if a minor is involved in a situation.

England

1019 Calls relating to new cases in England

207 Online Reports of new cases in England

393 Cases of Modern Slavery

1679 Potential Victims of Modern Slavery

The Helpline may receive multiple contacts on one case. For example, a case may start with an online report and then subsequent calls about that case could be made into the Helpline. Calls are recorded relating to cases of Modern Slavery reportedly occurring in England, even when the caller may be calling from another country. The caller may also talk in general terms about cases in England but may not specify a particular town, city or county.

Type of Modern Slavery

Common Potential Victim Nationalities

If a caller indicates a potential victim is from a region, such as Eastern Europe, the nationality is reported as 'unknown'. The nationality of 1171 potential victims are recorded as 'unknown' although the region may be recorded. Single victims with the following nationalities were reported: Cambodia, Cote d'Ivoire, Eritrea, Greece, Indonesia, Iran, Italy, Jamaica, Japan, Kenya, Malawi, Mauritius, Morocco, Russia, Scotland, Slovakia, Sweden, Syria, United States and Zimbabwe.

The number of potential victims and modern slavery cases recorded by force area may be higher than the total number of victims and cases indicated for England. This is because a victim may have been reported as having been exploited in more than one force area or location. Only police forces with reported cases of exploitation are listed.
